

# Buy a UXR Scope. Get a Free MXR.

**Purchase any Infiniium UXR-Series oscilloscope and get a free (MXR058A) 8-channel 500 MHz MXR-Series oscilloscope**

That's right, two amazing oscilloscopes for the price of one— (a \$30,500USD value)! The FREE MXR-Series scope allows you to test a broader range of applications more easily: analyze power integrity across all 8 channels, test 16 digital channels simultaneously, and execute RF testing with MXR-Series Real-Time Spectrum Analysis (RTSA).

Keysight's Infiniium UXR-Series real-time oscilloscopes have the industry's widest range of models — from 5 GHz to 110 GHz full bandwidth with up to four channels. The UXR-Series oscilloscopes boast sample rates as high as 256 GSa/s with the highest bandwidth, highest accuracy, and lowest noise floor.

## Infiniium MXR-Series Oscilloscopes

The Keysight MXR-Series oscilloscopes offer in-depth views for all your critical signals. You can now go from symptom, to root cause, to resolution — in minutes instead of hours. The Infiniium MXR-Series oscilloscopes support up to 6 GHz analysis on all eight channels, hardware accelerated measurements and analysis, and is fully upgradeable in:

- bandwidth, up to 6 GHz
- memory, up to 400 Mpts/ch
- real-time spectrum analysis
- arbitrary wave generator
- logic analysis with 16 digital channels
- serial protocol analysis
- frequency response analysis

**There has never been a better time to purchase a UXR-Series scope. Take advantage of this offer now!**
